

ments also contained records of re-funds given upon interstate shipments. That some of such refunds upon interstate shipments were paid by the special written decision of freight officials after the claims had been denied by the auditing department.

The justification offered by the officials and representatives of the Southern Pacific company for the practices revealed was that in general they were made necessary to secure traffic which shippers would move otherwise were not.

**Decree of Commission.**

In view of the foregoing, it is decreed that a copy of the transcript of the testimony in this matter be forwarded to the district attorneys of the United States for the several judicial districts wherein offenses against the act to regulate commerce were committed, as shown by this record, and that such officials be requested to institute such prosecutions under the law as may be warranted.

It is known that by instruction of Attorney-General Bonaparte, the district attorneys already have taken up the cases to be instituted for the purpose of beginning the formal proceedings as soon as possible. Names of the officials against whom the prosecutions will be directed are not known, and probably will not be until indictments by Federal grand juries have been returned. It is indicated as likely that the proceedings of the Department of Justice will be directed not only against the Southern Pacific company and officials of that company, but also against shippers who have enjoyed, according to the allegations made, rebates from the railway company.

## SAYS REIGN OF TERROR EXISTS IN WASHINGTON

**WASHINGTON, Feb. 15.**—The charge that a reign of terror exists in the city of Washington was made in the House today by Mr. Sims of Tennessee. He referred to the robbery of a woman last evening in front of the British embassy, and said it was the twenty-first of such crimes committed in this city since September last. He denounced the police force of the city, charging them with inefficiency.

The crimes, Mr. Sims said, grew out of the sale of cheap liquor to an idle class of criminals who had emigrated to Washington.

"Close your 800 licensed saloons here," he said, "and there won't be another of these occurrences."

**STOPPED SHORT**

Taking Tonics, and Built up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics—drugs.

New material from which to rebuild wasted nerve cells, is what should be supplied, and this can be obtained only from proper food.

"Two years ago I found myself on the verge of a complete nervous collapse, due to overwork and study, and to illness in the family," writes a Wisconsin mother.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics prescribed by physicians, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me and I gained no flesh nor blood."

Leading on Grape-Nuts. I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day with cream and drank milk also, went to bed early after eating a dish of Grape-Nuts before sleeping.

"In about two weeks I was sleeping soundly. In a short time gained 20 lbs. in weight and felt like a different woman. My little daughter whom I was obliged to keep out of school last spring on account of chronic catarrh, has changed from a thin, pale, nervous child to a rosy, healthy girl and has gone back to school this fall."

"Grape-Nuts and fresh air were the only agents used to accomplish the happy results." "There's a Reason."

## FAIR WEATHER WILL CONTINUE SUNDAY

Prophet Stands No Chance of Changing Elements Around Salt Lake.

If the daily weather reports mean anything, Dr. Hyatt long ago gave up all hopes of a fair day. For a number of days he has adhered strictly to his prediction of "fair," and there now seems to be little chance of his changing his mind. "Concerning weather conditions in the high barometric pressure, accompanied by generally fair weather, still continued Saturday morning over the Rocky mountains and plateau regions. During the past twenty-four hours the eastern storm moved from Texas to Oklahoma, northeastward, with greatly increased energy, and was central Saturday morning over western New York. It has caused heavy rains in the middle Mississippi and Ohio valleys and lower lake region. Heavy precipitation was recorded at the following places: Cairo, 1.24 inches; Cincinnati, 1.87; Detroit, 1.49; Buffalo, 1.12; Montgomery, 1.02.

Under the influence of the prevailing high pressure in the section, fair weather will continue Sunday in this vicinity."

Local forecast for Salt Lake City and vicinity: Fair Sunday.

Saturday's record at the local office of the weather bureau for the twenty-four hours ending at 6 p. m. was as follows: Temperature at 6 p. m., 37 degrees; maximum temperature, 43 degrees; minimum temperature, 32 degrees; wind, light breeze, which is 1 degree below normal.

Accumulated excess of temperature since January 1, 62 degrees.

Total precipitation from 6 p. m. to 6 p. m., none.

Total precipitation since the first of the month, .06 inches, which is .29 inch above normal.

Accumulated deficiency of precipitation since January 1, 43.16 inches.

**HOW I TOOK MY WRINKLES OUT**

After Massage, Creams and Beauty Doctors Had Failed.

By HARRIETT META.

Trouble, worry and ill health brought me deep lines and wrinkles. I realized that they not only greatly marred my appearance and made me look much older, but that they would greatly interfere with my success, because a woman's success, either socially or financially, depends very largely on her appearance. The homely woman with deep lines and furrows in her forehead, fight an unequal battle with her younger and better-looking sister.

I therefore bought various brands of cold cream and skin foods and massaged my face with most constant regularity, hoping to regain my former appearance. But the wrinkles simply would not go. On the contrary, they seemed to get deeper. Next I went to a beauty specialist, who told me she could easily rid me of my wrinkles. I paid the money and took the treatment. Some times I thought they got less, but after spending all the money I could afford for such treatment, I found I still had my wrinkles.

So I gave up in despair, and concluded I must carry them to my grave. One day a friend of mine, who was versed in chemistry, made a suggestion, and this gave me a new idea. I immediately went to work making experiments and studying everything I could get hold of on this subject. After several long months of almost numberless trials and discouragements, I finally discovered a process which produced most astounding results on my wrinkles in a single night.

"I was delighted and expressed my opinion. I tried my treatment again and lo and behold, my wrinkles were practically gone. A third treatment—three nights in all—and I had no wrinkles and my face was as smooth as ever. I next offered my treatment to some of my immediate friends, who used it with surprising results, and I have now decided to give it to the public. I will send further particulars to anyone who is interested, absolutely free of charge. I use no cream, massage, face steaming or so-called skin foods; there is nothing to inject and nothing to injure the skin. It is an entirely new discovery of my own, and so simple that you can use it without the knowledge of your most intimate friends. You apply the treatment at night and go to bed. In the morning, lo! the wonderful transformation. People often write me: 'It sounds too good to be true. Well, the test will tell. If interested in my discovery, please address HARRIETT META, Suite 1147, Syracuse, N. Y., and I will send full particulars.'

The cold, piercing winter storms are as destructive of human life as any of the terrible epidemic diseases. A cold weather in winter is unavoidable, it creates little alarm, although its influence on the health of adult persons are worse than those of the hottest season of the year. Think of the many deaths daily occurring of people of robust constitution, killed outright through the ravages of pneumonia, exposure to a chilling storm. It is well known that pneumonia, inflammation of the lungs, etc., is a dangerous disease, and that, to save the life of the patient, it is of the utmost importance to arrest them in their first stages as to their later stages they will battle the skill of the most eminent physicians, while in their incipient state they are promptly and easily cured.

**RADWAY'S READY RELIEF**

In every family this invaluable specific remedy for all inflammatory diseases should be constantly kept on hand. This Remedy is a more tried and more sure than twenty times the amount in doctors' or druggists' bills.

**ASTHMA FOR 12 YEARS.**

Dear Sir:—It affords me great pleasure to write to you and tell you how much good Radway's Ready Relief has done for me. I had asthma for twelve years and tried everything and was tired of going to doctors.

About two years ago I saw in the papers the advertisement of Radway's Ready Relief and bought a bottle and used it a fair trial. Before I used the first bottle I felt greatly relieved and took it when I was not then great spells.

I kept on taking it until I was entirely cured. I would not be without a bottle of R. R. R. in the house. I can say that R. R. R. is worth its weight in gold.
